

Before & After School Parents:

It's that time of the year again! In the case of hazardous weather predictions, the Park District has implemented our winter weather contingency plan. Below are snow day procedures for each Before and After school location.

St. George – If school is dismissed early at St. George due to hazardous weather, there will be **NO** after school program.

Bradley & Bourbonnais – If school is dismissed early in Bradley or Bourbonnais, we will only pick up children when notified to do so. In other words, if we do not receive a phone call stating your child needs to be picked up, we will assume that alternate plans have been made and your child is not attending our program. **Even if your child attends our program regularly, we need you to call us and let us know to pick them up.**

All Schools – If school is closed due to snow before school starts, there will not be a before or after school program. There also WILL NOT be a School Break Day program. The park district will not offer a program for the children to attend.

The BTPD reserves the right to close its facilities at any time due to weather. In the event that the BTPD closes, while children are present, parents will be notified and children need to be picked up within the hour. Please have alternate arrangements to pick up your children if you work out of town.

If weather is bad and you are running late picking up your children, please call the park district and have other arrangements made to pick up your children. We need to make sure that you, your children, and our staff all make it home safe.

Please leave an immediate contact number with all staff. Our weather line will be set up with updated information and cancellations. (815) 933-9905 option 5. Local radio stations will also carry BTPD closing information as well.

Thank you for your cooperation.

BTPD Staff
